Lakeview's Accelerated Instruction Program

As a Title I, Part A campus, Lakeview provides multiple opportunities for our children to achieve mastery of the knowledge and skills contained in the challenging state performance standards, which are the K-4th Texas Essential Knowledge and Skills. Part of how this is done for children at Lakeview is through our Accelerated Instruction program. All of our students receive accelerated instruction daily through small group instruction based on student's individualized needs. If you have questions about Lakeview's AI program, please contact your child's teacher.

Congratulations
Michelle Burkel!!

She was nominated as our October Employee of the Month. Also, a huge “Thank You” to Applebee’s for our employee recognition awards!

Counselor's Corner
